SOFTWARE DEVELOPMENT

EC Group specializes in partnering with companies to **navigate and overcome the common obstacles** that face a software development team.

Lack of
Resources

Limited
Expertise

Not enough
budget/time

EC Group's Advantage

Full Service

A partner in your software journey, with a Customer Success team that works with you at every step of the process.

Affordable Talent

Finding elite talent without compromising quality or affordability.

Consistent Value

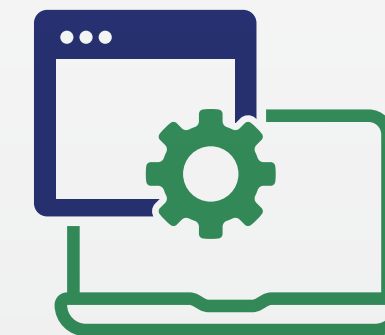

Delivering consistency to you when it comes to code quality and employee retention.

Our Services

Staff Augmentation

Scaling efficiently with experienced software engineers using our **HOST** Model

New App Development

Scale MVP's to enterprise-grade production ready products

Legacy App Migration

Modernizing your legacy applications to be compatible with the future standards, ensuring long term success

system**ONE** Platform

A fully functional platform designed to help bring your software to market faster

The **HOST** Model

Hosted Off-shore Software Teams

This process allows us to build teams in a uniquely creative way. We hire and equip the team of developers to be dedicated only to your goals. By developing your team in this fashion, we consistently achieve the highest level of sustainable success.

Core Values

Purpose Driven
People Centric
Think Long Term

Understand

Your Uniques

1) Understand your technology, your process and your current team. Your company and product are unique. Our goal is to ensure we are coming alongside your in-house team in the most efficient way.

Assemble

Your Dev Team

2) Hire and equip a team specifically for you and dedicated only to you. We handle all the recruiting and they work from our offices full time. It's your development team, hosted by us.

Accelerate

Your Velocity

3) See your velocity increase consistently. Our high retention rate and community of great developers are put to work for you. We handle any training or any assistance your team needs, which ensures long-term team success.

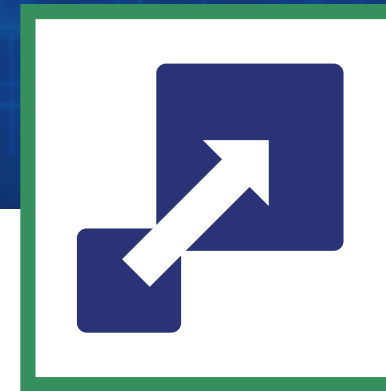

systemONE Platform

Ship Your Software Faster With Our All Inclusive Delivery Platform.

Full Stack Boiler Plate Code

.NET Core based back-end systems that adhere to secure, scalable and maintainable best practices. Front-end utilizes a Node ecosystem centered around VueJS.

A Future Proof Solution

SystemOne is designed to evolve and improve in response to changing customer needs, emerging technologies, and new business requirements by promoting the following:

- Adaptability
- Scalability
- Flexibility

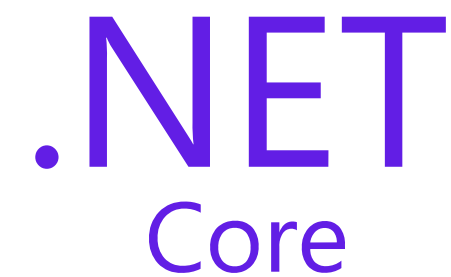

Built-in Functionality

Spend valuable development time on unique user features with the ground work already established. SystemOne is ready when you are with the following:

- API Integrations
- Multi-Tenancy
- Automated Jobs
- Admin Portal & More

Specializing in 35+ Technologies

How Does EC Group Compare?

	EC Group	In House	Agency	Freelancer
Time	Quick Ramp Up & Scalability	Longer Hiring & Onboarding Process	Time Consuming Candidate Search	Quick Ramp Unpredictable Output
Budget	Cost Effective & Transparent	Higher Overhead Cost	High Recruitment Fees & Hidden Costs	Cheaper While Also Variable
Expertise	Access to a Large Specialized Talent Pool	Limited Talent Pool & Solely Internal Training	Limited to Their Talent Pool	Limited to Individual's Skillset
Staffing Method	Hiring & Retention by EC Group, Dedicated Team	Hiring & Retention Costs	Third Party Contract, Shared Team	Third Party Contract, Shared Time
Consistency	95% Average Developer Retention Rate	Can Fluctuate Based on Dynamic	Dependent on Agency Search Quality	Lack of Scalability & Limited to Individual's Reliability

“EC Group has been the perfect fit for the needs of our IT Department. We were looking for a long-term partner to deliver exceptional quality, significant cost savings and the control that we need. EC Group has delivered.”

- Bob Wood,
CIO, Focus On The Family

“I would like to say a special thank you to the dev teams and also to the leadership of EC Group and for the way that they provide the direction and vision for the work we do together.”

- Greg Trihus,
SIL International

“They have successfully resolved a lot of pain points we previously had when working from two different countries- we have been thrilled with the communication, consistent progress, and skillset our engineer brings to the table. I’d highly recommend EC Group to anyone with a software engineering need!”

- Josh D’Angelo
